

Enterprise Network Vulnerability Assessment Report

Target: 127.0.0.1 | Scan Mode: Full (1-65535) | Total Ports Scanned: 65,535 | Audit Date: 2026-09-30 20:08:08

otal Ports Scanned	Open Services	Critical	High	Medium	Low	Info / Unknown
65,535	18	5	0	0	0	13

Identified Network Findings (Sorted Critical-First)

Port/Proto	Service Banner	Top CVE	CVSS	Severity	Remediation Directive
135/TCP	Microsoft Windows RPC Endpoint Mapp	CVE-1999-0364	10.0	Critical	Restrict TCP port 135 to internal administrative jump hosts.
445/TCP	Microsoft Windows SMB (v2/v3 Active	CVE-1999-0364	10.0	Critical	Disable SMBv1 host-wide; apply MS17-010 patch; isolate port 445.
623/TCP	Intel Local Manageability Service	CVE-2004-0039	10.0	Critical	Update Intel AMT firmware; restrict access to management VLAN.
5357/TCP	Microsoft WSDAPI Device Discovery	CVE-1999-0364	10.0	Critical	Disable Windows WSD if network device discovery is unnecessary.
7680/TCP	Windows Update Delivery Optimizatio	CVE-1999-0241	10.0	Critical	Configure Windows Update Delivery Optimization to local LAN only.
5040/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
8765/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
16992/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
20699/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
24042/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49664/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49665/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49666/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49667/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49668/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
49722/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
60397/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
60398/TCP	Active Listening Service	None Found	—	Unknown	Review service configuration and apply latest vendor security patches.
